

I depend on XM Instant Traffic & Weather to get me around town in NJ, NY & CT. It is the most reliable service out there. Please don't take the "good guys" off their. We are all living our lives and trying to earn an honest day's pay. If you take XM Instant Traffic & Weather off the air then the purpose of XM and Satellite Radio is lost. PLEASE don't stop this wonderful service that makes my drive to work and play easier.

Signed,

I love driving and XM gets me there faster!
